ABSTRACT

This study aims to determine the effect of achieving Maqashid Syariah on Good Corporate Governance, Islamic Banking Performance, Intellectual Capital with Earning as an Intervening variable. The population in this study is Islamic Commercial Banks registered with the Financial Services Authority (OJK) in Indonesia for the period 2016 - 2020. Sampling in this study was carried out by purposive sampling which resulted in a research sample of ten (10) Islamic Commercial Banks. Data collection techniques were using library research and internet research. The analytical methods used were multiple regression analysis and path analysis using SPSS 23.

The results obtained based on the Partial Test (t-test) obtained Good Corporate Governance in the sense that the Board of Commissioners (DK), Sharia Supervisory Board (DPS) has no significant effect on Earnings as measured by Net Income Margin (NIM), while Good Corporate Governance in the context of the Board of Directors (DD) has a significant effect on Earning using Net Income Margin (NIM) in Islamic Commercial Banks. Islamic Banking Performance as measured using Profit Sharing Ratio (PSR) has no significant effect on Earning as measured using Net Income Margin (NIM) in Islamic Banking. Intellectual Capital (IC) using the Value Added Intellectual Coefficient (VAICTM) model has a significant effect on Earning which is measured using the Net Income Margin (NIM) in Islamic Banking. The results of the Pathway Analysis of Earnings measured using Net Income Margin (NIM) cannot mediate Good Corporate Governance in the sense that the Board of Commissioners (DK) on the Achievement of Maqashid Syariah in Islamic Banking, while Earnings measured using Net Income Margin (NIM) can mediate Good Corporate Governance in the context of the Sharia Supervisory Board (DPS) and the Board of Directors (DD) on the Achievement of Sharia Maqashid in Sharia Banking. Earnings measured using Net Income Margin (NIM) cannot mediate Islamic Banking Performance as measured using Profit Sharing Ratio (PSR) on the Achievement of Islamic Maqashid in Islamic Banking. Earnings measured using Net Income Margin (NIM) can mediate Intellectual Capital on the Achievement of Islamic Maqashid by using Islamic Banking.
