

## ABSTRAK

Tujuan penelitian ini adalah untuk menganalisa pengaruh *multiple directorship*, *tenure*, dan *age* dewan direksi terhadap *corporate value*. *Multiple directorship*, *tenure*, dan *age* dewan direksi digunakan sebagai variabel independen dan *corporate value* digunakan sebagai variabel dependen. Dua variabel digunakan sebagai variabel kontrol yaitu *company growth* dan *company leverage*. Data yang digunakan adalah data sekunder berupa *annual report* tahun 2011-2017. Sampel pada penelitian ini adalah 266 perusahaan yang terdaftar di Bursa Efek Indonesia.

Penelitian ini menunjukkan bahwa *multiple directorship* dewan direksi berpengaruh negatif signifikan terhadap *corporate value*. Sedangkan *tenure* dewan direksi, *age* dewan direksi, dan *company growth* tidak berpengaruh signifikan terhadap *corporate value*. *Company leverage* berpengaruh positif signifikan terhadap *corporate value*.

**Kata Kunci** : *Multiple directorship, tenure, age, corporate value, company growth dan company leverage.*

## **ABSTRACT**

*The purpose of this study was to analyze the effect of multiple directorship, tenure, and age of the board of directors on corporate value. Multiple directorship, tenure, and age are used as independent variables and corporate value is used as the dependent variable. Two variables are used as control variables, namely company growth and company leverage. The data used is secondary data in the form of annual reports from 2011-2017. The sample in this study were 266 companies listed on the Indonesia Stock Exchange.*

*The results of the study show that multiple directorship board has a negative and significant effect on corporate value. While the tenure of the board of directors, the age of the board of directors and company growth does not have a significant effect on corporate value. Company leverage has a positive and significant effect on corporate value.*

**Keywords** : *Multiple directorship, tenure, age, corporate value, company growth and company leverage.*
