

ABSTRACT

Habibaturrahmah, 2020, **Relationship between Time Management and Academic Procrastination of Class X Students of State Vocational High School 9 Padang Academic Year 2019/2020**, Bachelor of Counseling Guidance Education, Faculty of Teacher Training and Education, Putra Indonesia University "YPTK" Padang.

This study examines the relationship between time management and academic procrastination of class X students of SMK N 9 Padang for the 2019/2020 academic year. The method used in this research is quantitative with the type of research that is correlational. This study population numbered 418 people registered in the 2019/2020 school year. The sampling technique used was Proportional Random Sampling, in order to obtain a sample size of 205 people. Based on. The instrument used in data collection in this study was a questionnaire arranged according to the Likert scale model. Data analysis was performed using statistical programs on the computer IBM Statistical 20 and Microsoft Excel.

Based on the results of the hypothesis the value of r_{count} is 0.431 while the value of r_{table} is 0.138 because the value of r_{count} is greater than the value of r_{table} ($0.431 > 0.138$), it is concluded that there is a significant relationship with a positive direction between time management and academic procrastination.

Keywords: Time Management, Academic Procrastination
