Announcement! The organizing committee is aware that some participants are now facing travel restrictions and may have to cancel their schedule because of COVID-19.

Submit your camera ready paper strictly adhere the guide of authors (<http://bit.ly/template-citei2020>) before May 25, 2020

Dear Mrs. ,

It is my great pleasure to inform you that your paper entitled #1570636682 (Analysis of Sales Levels of Pharmaceutical Products by Using Data Mining Algorithm C45) for 2020 1st Conference on Internet of Things and Embedded Intelligence (CITEI 2020) has been ACCEPTED for the CITEI 2020, which is planned to be held in Yogyakarta, Indonesia, between July 29th and 30th, 2020. Congratulations!!

Due to Coronavirus (COVID-19) in many countries, CITEI committee have make a decision that your attending for direct oral presentation is not required. We hope that we can attend and meet for discussion by oral presentation in future event (in the 2nd CITEI 2021). However, you should prepare a video presentation for your paper, and upload it to YouTube (or other sites), and inform us your video link. State in your video that it is your presentation for "2020 1st Conference on Internet of Things and Embedded Intelligence (CITEI 2020)".

16. Permintaan Upload Ulang Artikel yang telah direview :

The screenshot shows a Gmail interface with a search bar containing "CITEI 2020". The email subject is "Re-upload review version 1570632712 is possible". The sender is "Ippi=uad.ac.id@edas.info" and the recipient is "Rini, saya, Syafr, Guslendra, Sarjon, Watra, Ahmad, Alfian, Hendril, Phisca, Phisca, Deris, Arsyad, Imam, Tole, TH, Tri, Nuryono, Nuryono". The email body contains the following text:

Dear Mrs. Rini Sovia,

We confirm that you have successfully upload your paper #1570632712 entitled: *Analysis of Sales Levels of Pharmaceutical Products by Using Data Mining Algorithm C45* for review in the **2020 1st Conference on Internet of Things and Embedded Intelligence**. But, we give you an opportunity within 5 days to re-upload your review paper version. A high quality paper MUST has:

- A clear statement of the problem the paper is addressing -> explain in "Introduction" section
- The proposed solution(s)/method(s)/approach(es)/framework(s)/algorithm(s)
- Results achieved. It describes clearly what has been done before on the problem, and what is new.

The goal of this stage is to give you an opportunity to describe novel technical results.
There are four (4) types of technical results:

1. A theory: consisting of a collection of theorems.
2. An algorithm/method/approach/framework/.... ;
3. A system construct: such as hardware design, software system, protocol, etc.;
4. A performance evaluation: obtained through analyses, simulation or measurements;

The main goal of your revised paper is to ensure that the next person who designs a system like yours doesn't make the same mistakes and takes advantage of some of your best solutions. So make sure that the hard problems (and their solutions) are discussed and the non-obvious mistakes (and how to avoid them) are discussed.

Dear author...

Good day, I hope your condition is well during this pandemic.

I am Atika, editorial staff of Indonesian Journal of Electrical Engineering and Computer Science (IJEECS). I am here to inform you that your paper entitled "Analysis of sales levels of pharmaceutical products by using data mining algorithm C45" is scheduled for Issue April 2021. We are still working on your paper However, it needs revised ASAP.

Here is the detail:

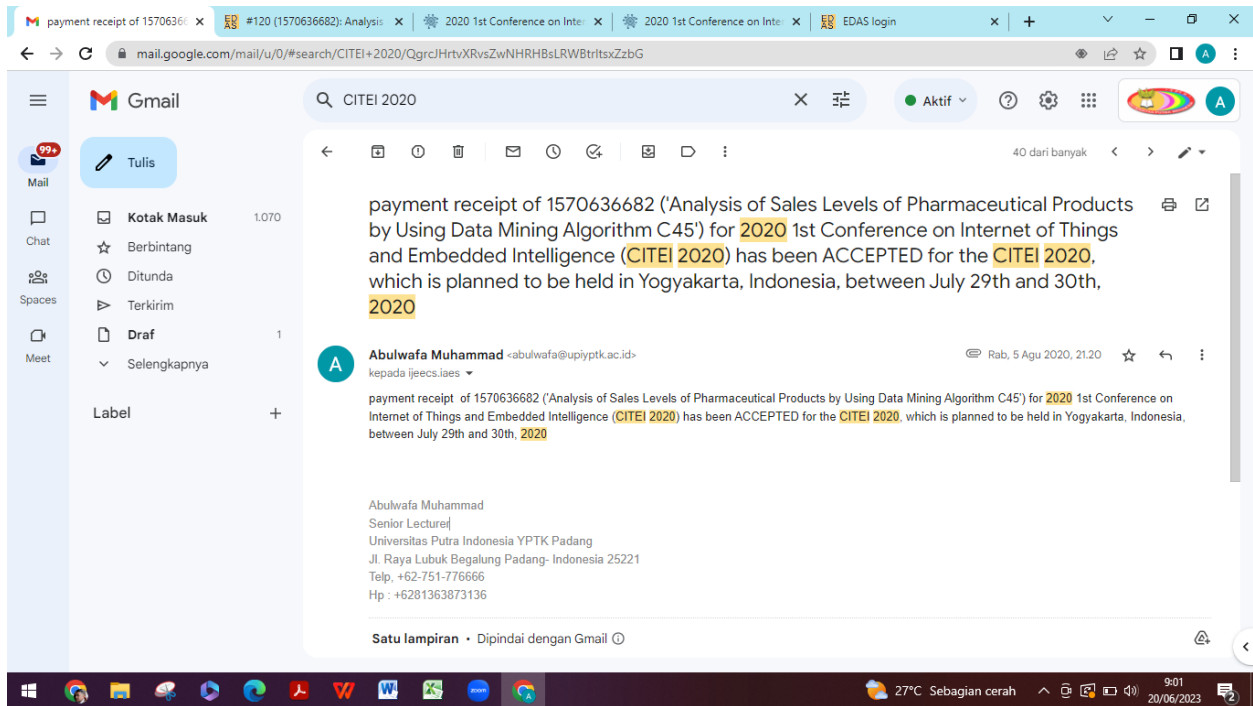

1. Each references [24] and [25] need to be mentioned on the text

You can read the editorials comment on this file attached.

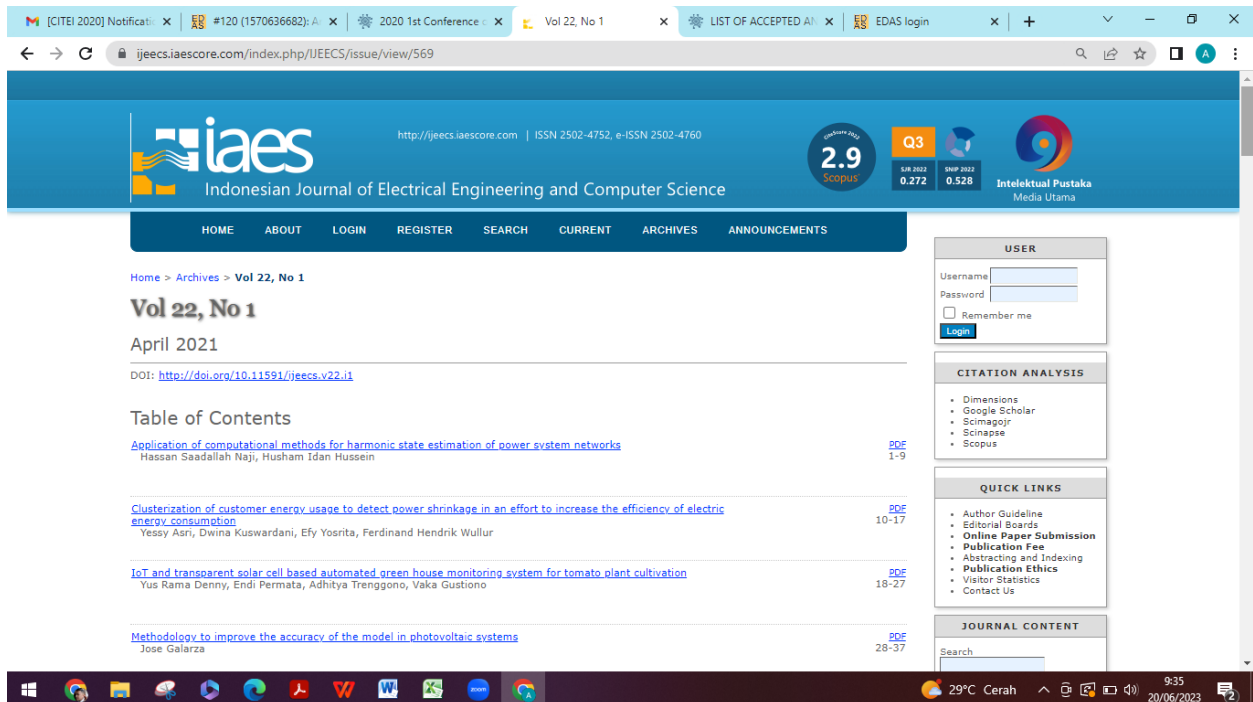

Kindly revise your paper on the file I attached, then submit it within 2x24 hours. To promptly proceed with the paper please kindly reply to this email for submitting your revision. Do not use paper other than paper that we have attached / corrected.

Analysis of sales levels of pharmaceutical products by using data mining algorithm C45

Rini Sovia, Abulwafa Muhammad, Syafri Arlis, Guslendra Guslendra, Sarjon Defit

Abstract

This research was conducted to analyze the level of sales of pharmaceutical products at a Pharmacy. This is done to find out the types of products that have high and low sales levels. This study uses the C45 data mining algorithm concept that will produce a conclusion on the prediction of sales of pharmaceutical products through data processing obtained from sales transactions at pharmacies. This C45 algorithm will form a decision tree that provides users with knowledge about products that are in great demand by consumers based on sales data and predetermined variables. The final result of the C45 algorithm produces a number of rules that can identify the inheritance of a type of medicinal product. C45 algorithm is able to produce 20 types of categories that will be labeled goals based on the number of pharmaceutical products, since it can be concluded that C45 successfully defines 55% of the existing objective categories.

Keywords

Algorithm; C45; Data mining; Knowledge; Pharmaceutical

The screenshot shows an email from IJECS Editor to the user. The subject is "Scopus indexed journal: Indonesian Journal of Electrical Engineering and Computer Science Re: payment receipt of 1570636682 ('Analysis of Sales Levels of Pharmaceutical Products by Using Data Mining Algorithm C45') for 2020 1st Conference on Internet of Things and Embedded Intelligence (CITEI 2020) has been ACCEPTED for the CITEI 2020, which is planned to be held in Yogyakarta, Indonesia, between July 29th and 30th, 2020". The email body contains the following text:

Dear Authors, Reviewers, Readers or Partners

Thank you for contacting us. We confirm that your email has reached us. We will reply to you as soon as possible.

For Authors: Thank you for considering the Indonesian Journal of Electrical Engineering and Computer Science (p-ISSN: 2502-4752, e-ISSN: 2502-4760) as the right place for your work. You should ONLY submit your papers using our [online submission system](#) (*submissions by email will be ignored*). Please ensure that you have prepared your manuscripts in line with the [IJECS's Author Guidelines](#) (where there are further relevant instructions that you must read and follow to ensure your submission goes smoothly). A good research paper has a clear statement of the problem the paper is addressing, the proposed solution(s), and results achieved. It describes clearly what has been done before on the problem, and what is new. All submissions will be reviewed by three independent reviewers and refereed by the Editors. Submissions will be judged on the following criteria: *Relevance, Significance, Novelty, Technical correctness, Experimental/evident support, Clarity of presentation and References, soundness and objectivity.*

Dear Mrs. Rini Sovia,

Congratulations!! Your paper is selected for publication in one of our journals. However, after editorial team meeting and careful re-review, your paper ID #1570636682 entitled "Analysis of Sales Levels of Pharmaceutical Products by Using Data Mining Algorithm C45" requires MAJOR REVISIONS before being scheduled for publication in one of Scopus indexed journals. We suggest for extension and improvement on results and analysis of your paper. You are asked
