URGENT!! Pay attention to the following instructions for fast review!!!

1). PLEASE ADHERE STRICTLY THE GUIDE OF AUTHORS  
<http://iaescore.com/gfa/ijeecs.docx> (Use this file as your paper template!!)

2). It is mandatory to present your final paper according to "IMRADC style" format, i.e.:

1. INTRODUCTION
2. The Proposed Method/Algorithm/Procedure specifically designed (optional)

3. METHOD

4. RESULTS AND DISCUSSION

5. CONCLUSION

See <http://iaescore.com/gfa/ijeecs.docx>

Prepare all your tables strictly adhere the guidelines (NOT as figure)

3). Add biographies of authors as our template (include links to the 4 authors' profiles, do not delete any icons in the template). Provide links for all authors to the 4 icons (Scholar, Scopus, Publons and ORCID). It is mandatory!!

4). Use different PATTERNS for presenting different results in your figures/graphics (instead of different colors). It is mandatory!!

5). Please ensure that all references have been cited in your text. Use a tool such as EndNote, Mendeley, or Zotero for reference management and formatting, and choose IEEE style. Each citation should be written in the order of appearance in the text in square brackets. For example, the first citation [1], the second citation [2], and the third and fourth citations [3], [4]. When citing multiple sources at once, the preferred method is to list each number separately, in its own brackets, using a comma or dash between numbers, as such: [1], [3], [5]. It is not necessary to mention an author's name, pages used, or date of publication in the in-text citation. Instead, refer to the source with a number in a square bracket, e.g. [9], that will then correspond to the full citation in your reference list.

Examples of in-text citations:

This theory was first put forward in 1970 [9].

Zadeh [10] has argued that ...

Several recent studies [7], [9], [11]-[15] have suggested that....

... end of the line for my research [16].

6). Please present all references as complete as possible and use IEEE style (include information of DOIs, volume, number, pages, etc). If it is available, DOI information is mandatory!! See
